NEW FOR 2025 // CODE_65316A

SQL 2025 BOOTCAMP

ADMINISTRATION REINVENTED

5 DAYS
INTENSIVE DELIVERY

DEDICATED BOOTCAMP MODE

Shift from passive learning to active mastery. In addition to the ILT mode, the new bootcamp track now allows you to engage with complex hands-on labs for the full 5-day duration, with an instructor. Deep-dive into DBA tasks, TKN-SQL and AI features in SQL Server 2025.

NEW CAPABILITIES

AI & Vector Search
Master the integration of AI models directly into your SQL 2025 workflow, focusing on vector similarity and intelligent query processing for the modern data era.

Advanced T-SQL
Harness new 2025 JSON functions, GREATEST/LEAST logic, and aggregation enhancements that significantly reduce procedural code complexity.

INFRASTRUCTURE

SSMS 22 Ready
Get hands-on with the completely redesigned SQL Server Management Studio 22, optimized for high-performance management and the 2025 release cycle.

Performance Insights
Leverage Query Store enhancements and Intelligent Query Processing (IQP) for automated database tuning and performance stability.

Lab Environment
AZURE SQL + SQL 2025

Certification Path
SQL SERVER 2025 CORE
